# DETAILS

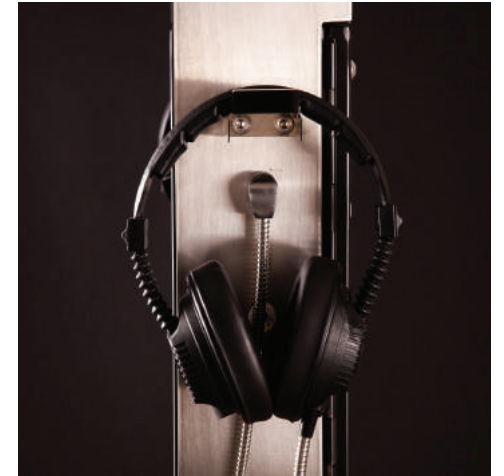

DESIGN

COIN SLOT

TOUCH SCREEN 17" FULL HD

STEREO HEADPHONES

An elegant metal plate structure holds a 17" full HD monitor and two stereo headphones. Visitors access content putting a coin into the coin slot and can also listen to the stories using their own 3.5mm headphones. Liliu Touch is accessible to all the public: it is compatible with hearing loops for the deaf, it supports videos for Sign Language

tours, it accepts vocal commands for the visually impaired and can be used by adults and kids, both standing or sitting down. Liliu Touch is the latest heir of the first audio guide, which we installed in Milan Cathedral in 1959: a sum of all the company's experience in developing multilingual audio and multimedia guides.
